Principal's Address

Dear Delegates,

I welcome you all to this model United Nations conference--a unique and defining moment for you to embark upon some of the pressing global issues as well as an opportunity to develop a comprehensive understanding of geo-political dynamism of the 21st century.

'The world today is confronted with new and emerging challenges to' human security' in terms of loss of biodiversity, rampant malnutrition and poverty, narcotics trafficking and epidemics, over and above some of the persistent threats to 'national security' like the proliferation of weapons of mass destruction, war and genocide. As a result, there is an increasing realization among nations that 'multilateralism' is the only way to combat the global challenges. There is a renewed hope in the efficacy of the United Nations as the only organization to bring about real and lasting changes and "speak in one voice" for the entire humanity.

In a landmark decision of the United Nations in 2012, various governments of the world have converged on the need to develop a new set of sustainable development goals based on the achievements of the Millennium Development Goals launched by the UN, a decade ago. Today the UN stands with a greater vigor to irreversibly eradicate poverty and decisively move towards building new economies, which can adapt to the growing impact of climate change. These new goals as declared by the UN, will be transformative, universal, inclusive and equitable- guiding all economies; the developed and the developing, alike.

And needless to say, as global citizens of this challenging era, it is 'YOU', the youth who can transcend the socio-cultural barriers and foster a culture of international harmony in a world, which is divided and fragmented over conflicting interests and aspirations of nation-states.

As you carry forward the legacy of the United Nations, be firm in your resolve to seek solutions to the daunting global challenges which have mitigated human progress for long, It is you who can make informed and sensible choices, which could bring greater human good, ushering in a new era of hope and promise to humanity.

In the coming years, as the world would require institutions at both national and global level, which are more accountable, democratic and effective in facilitating human development, there is an impending need to equip these institutions with individuals like you who would act with the will, insight and conviction to translate some of the unfulfilled dreams of mankind to reality.

You can, and I firmly believe that you will, continually endeavor to raise your own level of commitment to uphold and work towards enhancing human progress, prosperity and peace.

Wishing you success in all your missions.

Secretary General: Neha Dewan

It begins with an end.

The end of a glorious year that marks a new beginning.

With MUNQSMUN 2012- the benchmark was set high. It was unmatched.

This year, with MUQNSMUN 2013, our first year as an All-India Model United Nations Conference, we foresee nothing, but the battle of the best.

It's a journey we wmbark upon together, it has its highs and its lows, but this journey is nothing but about the people who make it worth taking- MUNQS. The Model United Nations and Quiz Society of Delhi Public School, Mathura Road gives me the pride and honor as Secretary General to welcome you to our MUNQSMUN 2013- The most awaited conference of the year.

We hope that you are as happy and content as we are.

Deputy Secretary General: Aman Kalra

As we say MUNQSMUN, "Battle of the best".

I believe this conference is going to be very different and a memorable experience. This conference either makes you or breaks you. MUNQSMUN cannot be described in words because it's something bigger than that.

All the best to each participant.

Deputy Secretary General: Shaurya Jain

MUNQS has always set standards beyond passions. Our aim is to set records for ourselves to beat and live up to the expectations of seniors. As we call it, "The Battle of the Best" will definitely put up a unique competition for you and for us to embrace.

Simply put, I love MUNQS more than anything and our brainchild, MUNQSMUN 2013 is the closest to my heart.

Head of Department: Navtej Gulati

MUNQS defines a legacy that we've all been a part of.

It's a legacy greater than any history ever created.

I am proud to be a part of not only this wonderful conference that we have created together, but also of being able to carry the title of this much respected club that we strike each year to make nothing – but the best.

So, “give your best for the battle of the best”

I wish you all, the very best for MUNQSMUN 2013.

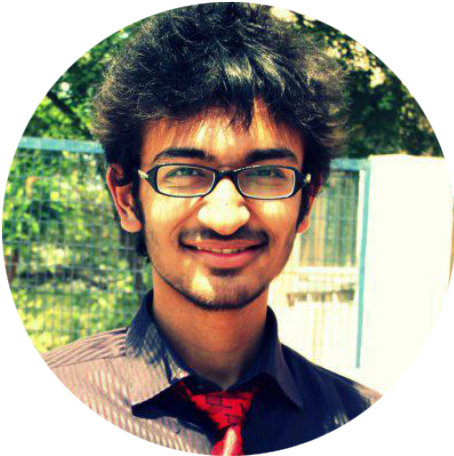

Head of Department: Pulkit Jain

Greetings Delegates.

All war represents the failure of diplomacy! In this essential activity of diplomacy and politics which has gone hand in hand with the flourishing of ‘organized’ humanity ever since, in all eras of history, ours is an amalgamation of many eras and many fields of international relations into the same Pandora Box.

The idea, which was born four years back, keeping up with the legacy and continued efforts of the same, I proudly present to you and cordially welcome you to the battle of the best- MUNQSMUN 2013.

Do your best, because more than anything else you'll get the best learning experience with us. Happy MUNing.

Head of Department: Madhav Ahuja

MUNQSMUN is something that I can't possibly describe in words.

MUNQS has always been more than just MUNs for us. It has been a journey, a journey to be the best. From being a logistic in MUNQSMUN 2011, to being the Head of Department in 2013, it has been a complete transformation. The amount of hard work that we've all put to make this event a success is unexplainable. MUNQS has always set standards and MUNQS has always been about challenging ourselves to break our own records.

MUNQSMUN 2012 was a huge success and we hope that 2013 is even bigger.

Because it's not just any other MUN, it's MUNQSMUN.

ABOUT MUNQS

The Model United Nations and Quizzing Society of Delhi Public School Mathura Road was officially formed in 2007 by the batch of 2008. MUNQS has constantly strived to achieve excellence and follows the simple mantra of "Survival of the Fittest".

Over the years, we have collectively set records, not just for others but also for ourselves. Our biggest challenges are living up to our seniors and carrying the legacy of MUNQS forward while maintaining our ethics and spirit.
